**Business Insurance Issues**

**Just because it doesn't keep you up at night, doesn't mean it is not scary.**

- Were you advised to waive Terrorism Insurance? Why?
- If private information you have is made public, are you covered? Is it complete coverage?
- If your employee has an auto accident while working for you, can you be held liable?
- Are you positive you don't need Workers Compensation insurance?
- If your advice causes damages to someone, is it covered?
- How sure are you that your property claim will pay you in full?
- Does flood insurance make sense if you are not in a flood plain?

We all have been told "the devil is in the details". What you may not have been told, is addressing the "details" may not be expensive (unless there is an uncovered claim!)

Talk to an **Insurance Center Group** agent today for a quick and easy checkup.
